EasyZip - How do I compress a folder and later restore it...

File Edit View » Back » Address Links » hp » 100%

Search Search Images Options

How do I compress a folder and later restore it?

How to compress a folder and its subfolders:

1. Start EasyZip
2. Select "New Archive" from the "File" menu
3. Type the name of the archive, for example: C:\MYDIR.ZIP and press the Enter key
4. Select the directory you want to compress.
5. Be sure the "Save extra folder info" box is NOT checked
6. Press "Add" button.

How to restore a folder and its subfolders:

1. Start EasyZip and open the ZIP created in step 1 above
2. Select "Extract" from the "Actions" menu

EasyZip 2000 - virtualdub-1.9.7.zip
